

Truth About Sukshma Baba

Before the absolute, that which is beyond all comprehension incarnated, the decision was made that at age 86 he would leave his physical body for another form. His old body did not allow him to do what needed to be done to complete his mission.

Sathya Sai started preparing 50 years ago with his guidance of campuses at Alike and Muddenahalli. As the years went by, his role expanded. His many visits to Muddenahalli insured that progress was going in the direction that he wanted.

Finally, he requested, directed and oversaw the building that he said, while he was still in the physical body, would become his home. On the day the physical body was placed in the MahaSamadhi in Sai Kulwant Hall, Sathya Sai moved into his new home in Sathya Sai Anandam in Sathya Sai Grama in Muddenahalli.

Meanwhile he left behind a body that appeared to be physical but was actually the energy of the universe. The energy of the center of the universe. People from all over the world and entities from all over the universe have come and will continue to come to be blessed by the sacred energies of the absolute. The energies and these quests will last for thousands of years and maybe longer.

Since Sathya Sai was no longer in a physical body, he needed a person who could resonate with him and speak exactly what he said. For over a decade, Sai Baba had been preparing Madhusudhan for this role. He had to undergo austerities until the only thing in his life at all times was Swami. Nothing else exists for him ever. Madhu achieved the ultimate sacrifice of total complete surrender to the absolute which we refer to as Sathya Sai Baba.

If he wanted, he could have merged but chose to remain in his physical vehicle to help Swami complete his mission. There is no difference between the two. Swami and Madhu are one.

When you look into Madhu eyes you see Baba. The voice that speaks is Baba. The gestures, walking and mannerism are Baba. Even the smell of Jasmine are indications of their oneness. There is only one difference between what is happening with Madhu-Baba and Sathya Sai Baba.

Previously, there was a form. Now that is gone but everything else is the same. The Love, the vibrations, the feeling of Oneness leading to Peace and Joy are the same. The desire to get closer to the creator moving about without form is just as intense as it was when there was a physical form.

Baba says that before he came down to our level where we were able to interact with him on a physical level. Now it is our turn to move up by going within. It is through our hearts that we can approach Swami in his Sukshma form. Repeating the name of god and doing selfless service is the means.

Some have seen him in this form. A few have heard him speak. Anyone who undertakes the austerities can eventually see and hear him.

To those who have had interviews there was no doubt that this was Sathya Sai Baba. To many he revealed things that no one else knew. In some cases only Sai Baba and the person knew about the event.

People who have known Swami since he was a boy, entertainers that have performed for him for decades, organizational people who worked very hard to build the Sai organization in India and abroad and many others, know with absolute certainty that the Sukshma form is Sathya Sai Baba.

Some people who have closed their eyes during a discourse reported that the words used, the manner of speaking, inflections, humor and more were exactly like Sathya Sai Baba including his gestures.

Some people have received objects such as rings and neck chains. These were either placed in Madhu pocket ahead of time as Swami knew who was coming when. In other cases, the items were teleported. All these items had been purchased from jewelers according to specifications by Sukshma Baba.

One amazing thing is that the rings are all the right sizes as is everything else.

But have no doubt about all these objects being infused with divine energy.

Many people continued the practice started in Puttaparthi by demanding that Baba allow them to contribute to the building of needed structures. No money is asked for anything. As is the practice in Puttaparthi, there is no collection of money or items for darshan.

As is done in Puttaparthi, those who wish to donate money for a particular project can do so.

Many people are so filled with Gratitude and Love that they insist on undertaking major projects with Sai Baba's blessing in their country or in India. They insist that Baba let them fund projects. In some projects, these people are supplying the money, the architect and the contractors. Baba overseeing the project. Nobody can undertake any project unless they have earned Grace.

The plans for the immediate future include 23 more residential schools in Karnataka, 4 more super specialty hospitals in India bringing to 7 those in India, several water projects, and solar power for all the campuses and its surrounding area to eventually spread throughout India. Also, planned is one super specialty hospital in Mississippi, U.S.

The Muddenahalli Campus is undergoing many changes. A prayer hall/auditorium for 5,000 people will be built to accommodate all the students in one place as well as devotees. It will be inside to protect people from the elements. A canteen will be constructed to accommodate Indian and foreign visitors.

Housing for staff and guest is being undertaken. Guests are being allowed to purchase their unit by making donations. This was done in Puttaparthi where each

unit has several donors. Money by donations was used to pay for the construction of housing units, super specialty hospital and other projects in Puttaparthi.

All of the campuses are undergoing expansion. New college campuses and special schools for girls are being undertaken.

It was and is the most amazing thing. As soon as a desire for a project is announced by Baba, money starts pouring in even from people who are not even present for the announcement.

No one involved with any of Sathya Sai Baba's many projects has ever asked for money. A need is announced and people come forth with request to be allowed to fund that project. Sai Baba must approve the giver. It must come from the heart.

Staff have dedicated their lives as have alumni to further Swami's mission. Their entire life is about fulfilling Baba's mission.

Some individuals have taken upon themselves without investigating in person to claim that there is no body but it is all the figment and the work of Madhusudhan Rao Naidu and Narasimha Murthy.

Narasimha has devoted his entire life to Sai Baba. Swami entrusted him with several important positions. His life has been angelic to the point of surrender to Baba. So pure is Narasimha that he had the reputation of being the only person whose advice Baba followed. Madhu as stated sacrificed his life to be a perfect instrument for the Absolute.

Those who claim that Madhu is being used as a Medium do not realize what is really happening and do not understand what and how mediums work. For those who had not had that experience, it would be easy to confuse what happens as mediumship as the person has no other way to think about it.

We have made many visits and have observed the interaction very carefully. If you watch carefully, you can sense where Sai Baba is. Mediums are usually in a particular environment and many go through a special ritual to call in their entity.

None of this is present with Sukshma. Madhu and Sukshma Baba walk around, go outside, go in automobile and visit many places. Responses to questions are immediate. The response is with words and mannerism that is easily associated with Swami.

Sukshma has stated that this form will last only to the 96 year when it will be no more. The mission for which Sathya Sai incarnated will have been completed.

For many decades, Swami did all of his work in Prasanthi Nilayam/Puttaparthi. He built a spiritual empire that no one will ever rival. Number One. It will take time for it to blossom and for people to realize the magnitude of the work done there and around the world.

Sukshma Baba and those near him have nothing but praise for Prasanthi Nilayam. There have been only positive comments.

Sathya Sai had promised his mother that he would never leave Puttaparthi and he hasn't. He left his body for the MahaSamadhi as proof. The energies that come from it are unique to this location only.

For three days during the viewing and the funeral, we prayed for Sai Baba to come back to life. Resurrection would have meant that the body that was lying in the glass coffin would spring back to life better than ever. During the funeral, Baba said to me. "Not This Body". We gave up the hope for resurrection. We got something better.

Muddenahalli was set up under a different trust. It has always been that way. It is not connected with the Central Trust and other trust set up in Puttaparthi. The two organizations have their roles to play. There is plenty of work for the Puttaparthi Trust. There will always be funds and projects for them to undertake.

The Muddenahalli trust is separate and will be used to help finish the mission of Sathya Sai.

The day will come in the near future when both groups will be as one acting as a united force of light.

There have always been people who have tried to benefit from the advent of Sai Baba. They have formed trust, sought donations in one manner or other and have cheated many people. This tendency continues with Sukshma Baba with people collecting money in his name or making all sorts of claims.

There continues to be many fake babas in India. People tend to lump them all together. However, we all know that by the time his mission is completed, Sathya Sai Baba will outshine everyone else without even a close second.

As Sathya Sai Baba warned people several times not to listen to these people or to mediums. This advice continues to be valid today. You must be careful who is telling you what. Nobody should come between you and Sai Baba.

Fortunately with Sukshma Baba there is nothing between you and the absolute. Sai Baba without a physical form leaves only pure divinity. While Madhu is moving about seemingly in control, it is really the absolute doing the talking, walking, answering questions and the many other activities.

By their fruits you shall know the tree.

What is taking place has never happened with an avatar before. In Rama time some sages have left their physical body to return to continue teaching their pupils using the sukshma form.

While everyone has a subtle form divided into parts so that there are different levels of sukshma. However, it is different for Sathya Sai. He is pure Sukshma with no division. Only the pure absolute descending to help us.

Madhu was specially prepared to be able to receive the pure energy and transmit Baba's speech so that it could be heard and understood by the listeners. In this way people were blessed with sambhashan.

Madhusudhan is the main one who is used. The transmission is in Telegu. When it was necessary to translate the message into English, another person usually Narasimha would translate whatever Madhusudhan verbalized. However, sometimes Baba will speak in English where Madhusudhan will do the same.

Some people during the Rama dynasty engaged in these techniques. But now the absolute in his role as avatar is using it for our benefit.

However, Madhusudhan is not the communicator. Two entities bound as one with the avatar completely in control at all times.

What we are witnessing has never taken place in the history of mankind and may not occur again.

Such is the power of maya in the final days of this yuga, that outright lies and distortions of the truth are appearing in the media even as movies. Respected Sai officials have forgotten the absolute divinity that was and is Sathya Sai Baba. He can do whatever he wants. He is complete control of all that happens.

What is happening is the same as when Sathya Sai announced that he was the reincarnation of Shirdi Sai. For a long time some people did not trust him and were even afraid of him. Even after leaving his physical body, there were people who have known him his entire life that did not realize his divinity. However, with the present situation, it will be different.

Sukshma Baba said recently that he knew all this negativity would happen but it was for the good. More people are learning about him, asking questions, investigating and coming to see for themselves.

The Sai organization will be as one. India will be as one. The world will be one. One with each other and with the creator.

Be Good - Be Happy
